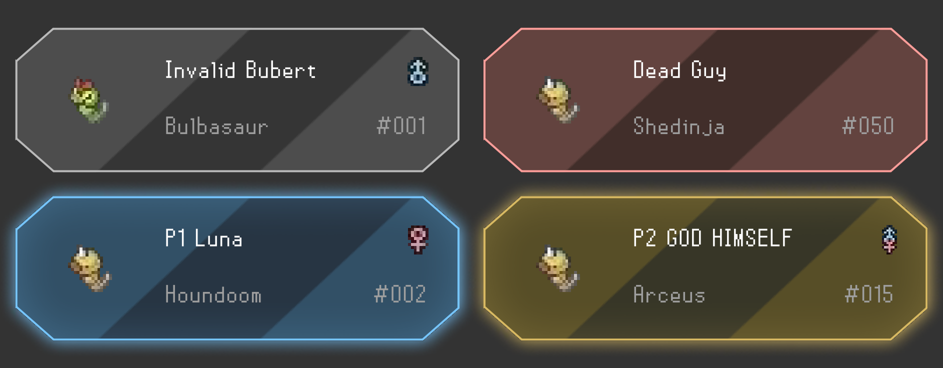
Pokémon Button

A Container similar to the Party Screen in Black&White.

It holds the Sprite of the Pokémon-species, the chosen Nickname, Pokémon-species name, Gender, and catchID.

It is also Displayed in a different style based on Statuses such as Player assosiation, Input Completeness, and Living Condition.



Variable	Type	Description
Sprite	Graphic	The (animated) Sprite of the Pokémon-species
Nickname	String	The chosen Name for the Pokemon
Kind	String	The Pokémon-species' name
Gender	Gender Enum	The Gender of the Pokemon
CatchID	u16	The enumerated Catch Number for Linking Entries together
Status	Status Enum	The State of the Pokémon if any

Constant	Type	Description
Gender Enum	Type	Male, Female, Non-Binary, None
Status Enum	Type	Player1, Player2, Dead, Inactive
Status Priority	Priority	Inactive/Dead take priority over Player association
